Our Operations

- 10,000+ employees
- 57 manufacturing facilities with 2 world-class recycling centers
- 12 acquisitions since 2008
- Headquartered in Hartsville, SC

Sustainability

We choose materials, develop products and apply manufacturing processes that can minimize our impact on the environment. We have committed to reduce greenhouse gas (GHG) emissions 30% by 2030, increase use of recycled content in our products, and design for recycling and composting. Aligned with these strategies, we work to support policy solutions that expand recycling and composting infrastructure.
