

RollStar™ Bakery Bag System

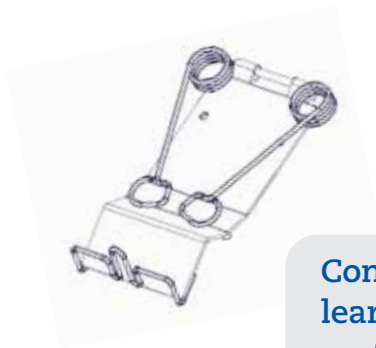

RollStar™ Bakery Bag System

ROLLSTAR DELIVERS

The RollStar Bakery Bag system is an integrated bag-on-a-roll solution for your bakery department. The innovative dispenser works seamlessly within your bakery merchandizing scheme to allow shoppers to easily dispense one bag at a time. The dispenser is capable of holding small residual rolls securely in place to prevent wasting bags.

The RollStar Bagging System makes it easy for both you and your shoppers to focus on your bakery--not the bagging system.

Contact your sales representative to learn about the multiple dispensing system options available.

FEATURES & BENEFITS

- RollStar Bakery bags can be used to pre-package bakery items.
- The universal narrow bag dispenser fits almost anywhere and allows for flexible merchandise design.
- The large bag with Star Seal Bottom is strong enough to hold multiple bakery items.
